

# GOT BATTERIES?

## **Announcing the King's Battery Collection Drive!**

In honour of Earth Day (April 22), King's will begin an ongoing initiative to help save our planet!

Do you have old, used batteries at home, and don't know where or how to recycle them? Don't throw them out! Bring them in to King's and drop them off!

2 convenient locations are available:

- ♦ Central Services in Wemple
- ♦ Social Work Office in Labatt Hall

Bring your batteries to either drop off spot, or send them through inter-campus mail! Volunteers will take them in to Best Buy, Home Depot, or the Household Waste Depot to ensure they are disposed of properly.

We accept all sizes of batteries, including old cell phone & cordless phone batteries.

**Help put the **green** back into King's!**
